HINTS FOR YOUNG HUNTERS

Above All Other Things Do Not Point a Gun at Anybody at Any Time—Never—Careless.

Don't pull a gun after you through the brush or through a fence. Put it ahead of you.

Don't shoot towards a building or towards a place where there are persons. Even though you may not shoot directly at them the glancing of shot may do mischief.

Don't shoot until you are certain of your target. Many a cap has been mistaken for a grouse, and many a canvas suit for an animal of some sort to the sorrow of the hunter and the victim's family.

If a good deal of shooting is done it will pay to clean the rifle or shotgun during the middle of the half day. It will shoot more true and strong.

The smaller the rifle or gun the more carefully it must be held for accurate shooting. Heavier arms are most sure for long range.

Buy a gun of good quality, and not a cheap toy. A reliable rifle or a shot-gun that will shoot hard and true is a friend on the ordinary farm. Much pleasure and often profit may be had from the right use of the right kind of a gun. Only let us never be careless.

Bette Cakes.

Boil until soft one-half pound of rice in salted water. When cold add two eggs, a half cupful of sugar and a half package of self-rising flour. Soak a slice of bread in water, drain and take off the crust; mix well with the rice and cook by dropping a spoonful at a time in boiling lard. The cake must not touch the bottom of the pot. Serve with hot coffee.

Better Bacon.

If bacon is cooked on a rack or wire toaster in the broiling oven of the gas stove, with the oven door open, the bacon will be much nicer than when fried, and there will be no smoke in the room. If the door of the broiling oven be left open when cooking any meat there will be no smoke in the kitchen.

Saving Money on Soap.

Never put a quantity of new soap in the pantry—its odor is penetrating, and delicate articles taken on the flavor. It is economy to get both laundry and toilet soap by the box and dry it thoroughly before using.

To Keep Yeast Fresh.

Having discovered an excellent way to keep yeast cake fresh for a week, I pass it on. Remove the tin foil from the yeast, bury the cake in a cup of salt and set in a cool place.—New York Press.

For Your Kitchen Range.

Add six or eight drops of turpentine to your stove polish and you will find it much easier to get good results.

About Spots on China.

To remove tea stains from china, dampen the spots with water and rub liberally with table salt.

Bit of First Aid.

In cases of shock and collapse it may be advisable in certain cases where collapse is imminent to administer a little stimulant in the shape of brandy and water, but it has to be noted that the use of alcohol under such circumstances must be carefully carried out, inasmuch as in certain cases (as in apoplexy, for example) the administration of alcohol is calculated to prove highly injurious.

Things Fatal to Healthy Life.

If we cease to struggle or think, and are content to live a purely animal life, the activity of our brain powers quickly ceases and we are mentally dead. Struggle, action, aspiration is dying, but it means living. Introduce the poison of rice, and there is a cessation of mental life as fatal as that caused to the body by arsenic.

Bell Never Stops Tolling.

A bell in a temple in North China has been kept ringing for a century. A tax is levied in the district for paying relays of ringers to work incessantly day and night.

NUMBER OF DAYS IN MONTH

Simple and ingenious Method as Practiced in Iceland is Shown in Illustration Hereafter.

No doubt most people remember the number of days in any particular month by recalling the rhymes they learned at school. Another method is practiced in Iceland, and it is so simple and ingenious as to be worth knowing.

Shut the fist and let the knuckles of the little finger represent January with its 31 days, and the depression between that and the next knuckle will represent February with its less.

Jan. Mar. May July
Feb. Apr. June

To Tell Days in Month.

er number of days. And thus every month that corresponds to a knuckle will be found to contain 31 days, and every month that corresponds to a depression a less number of days.

The forefinger will represent July, and beginning again with the little finger knuckle it stands for August, and from this one continues to count through the months of the year.—Harper's Weekly.

Nature's Wonders.

Say, Chimney! I want out yesterday.
"What'd you see dere?"
"No grass what you see by jing—Punch."

This is the First Authorized

Hoosier Cabinet Sale

In the City of Pickens

This is your opportunity if you act quickly. You may search the whole world and find nothing that will save you so much labor in your kitchen as this new HOOSIER. Grasp this chance and free yourself from kitchen drudgery.

HOOSIER CABINETS are not furniture. They are Labor-Saving Machines, built from hundreds of tests, to cover every kitchen need.

Read about these conveniences that made the HOOSIER necessary to over 700,000 women.

(1) Mrs. Christine Frederick's famous "Housekeepers' Food Guide"—on the upper left door—answers the eternal problem: "What shall we have for dinner?"

(2) The Cook-book Holder on the middle upper door folds your cook book securely when not in use. When you are cooking, simply open up the book to the proper page behind the holder. It is on a level with your eye, always clean, never in the way.

There are 40 special conveniences in the NEW HOOSIER—17 are entirely NEW.

(3) The Hoosier Metal Flour Bin holds fifty pounds. It is low and easy to fill. The sliding glass front enables you to clean the entire bin easily. The inside is entirely of metal, with no corners to hold flour. First flour in is always out first.

(4) The New Shaker Flour Sifter is the most wonderful of all the new Hoosier inventions. It is the only flour sifter ever made on a kitchen cabinet that shakes flour through instead of grinding it through. It cannot wear out and cannot grind through any grit or foreign substance that might be in the flour.

OUR WINDOW DISPLAY is the talk of the town—come and see it.

(5) A new feature in the Base Cup-board is a narrow shelf conveniently located for the storage of canned articles. Most women will find this a great convenience as an "emergency shelf." It will save many trips to the cellar or pantry.

TOMORROW YOU may examine all the new features. You incur no obligation. But you should come early. It may be too late to get one on the HOOSIER PLAN if you delay. Come and SEE this remarkable NEW Hoosier tomorrow.

Just wink your Christmas eye at Mr. Husband and say "HOOSIER"

We will have two samples of the HOOSIER CABINET on display at F. PARSONS' DEPARTMENT STORE this week from Tuesday to Friday, inclusive, August 25, 26, 27 and 28. All the Ladies are especially invited to call and see them.

Cellar Champion.

A seven-year-old boy, coming from school one day, informed his mother that half his class had been promoted. His mother asked him whether he had been one of the number. "No," said he, "and I'm glad I'm not, 'cause I'm the smartest one left."

Sow More Grain

If every farmer will sow five acres of oats to the plow, and three acres of wheat to the plow, on ground that is well prepared and well fertilized, he will make enough wheat and oats to do him.

The corn crop is likely to be short in this section, as the seasons have not been favorable for making corn. If the war in Europe continues for a long time, there will be a tremendous amount of corn and wheat and oats exported to Europe, and this will make corn, wheat and oats high.

September is a good time to sow oats. Prepare the ground carefully and thoroughly before you get to picking cotton and fertilize it with about 300 pounds to the acre of say, 10-1-3 or 10-1-4, your oats will get well rooted before the cold weather comes on and if sown in the drill it is about as sure a crop as you can plant. These oats will come in early next spring and will help out a short corn crop.

Now and then you hear of a farmer sowing oats in August, and we believe the August sowing always makes a good crop.

September is a capital time to sow oats and we believe it will pay you mighty well to sow some this fall.

It always pays to prepare your land well, and to fertilize it well.
